PROFESSIONAL EXPERIENCE

Market Support Miami LLC
Developer and Communications Leader
2023 - PRESENT

- I developed and optimized multiple WordPress websites, improving management and enhancing user experience. I implemented e-learning and e-commerce systems. I automated meeting scheduling and HTML link delivery, streamlining internal processes. I built dashboards in Looker Studio to monitor key conference KPIs. I created multiple interactive sites and games for medical representatives. Additionally, I led website redesigns, optimizing their management and accessibility for the internal team.

SENA
Programming Instructor
2022 - 2022

- Trained and guided young programming enthusiasts in Python, supporting them in completing their projects while fostering innovation and disruptive thinking.

Liceo adventista libertad
Programming Instructor
2022 - 2022

- I guided final-year students to complete their programming projects, which were their graduation projects.

Innovacenter SAS
Systems Engineer
2019 - 2021

- Developed an accounting system with inventory and sales management, and led organizational projects creating websites for clients, primarily using WordPress and Joomla.

Version Control: Git, GitHub

Web Development: HTML, CSS

Databases: MySQL

Other Skills: Wordpress, CRM, Marketing, IA, Google Script, Tics.

SOFT SKILLS

- **Creativity**
- **Responsibility**
- **Leadership**
- **Teamwork**
- **Detail-Oriented**
- **Communication**
- **Positive Attitude**
- **Time Management**
- **Organization**

LANGUAGES

- Spanish: Native.
- English: B1 Level

ABOUT ME

I'm passionate about technology and always up-to-date with the latest trends. I love solving problems and finding creative solutions. I have 1 year of experience as an educator and 3 years in the IT and programming sectors, where I've been involved in all stages of web development. My true passion lies in frontend development, but I've also worked on backend and deployment. I'm always looking to automate processes through programming to optimize operations and improve productivity. Additionally, I leverage artificial intelligence wherever it's useful to enhance efficiency in key areas. I enjoy collaborating and continuously learning, taking on challenges that allow me to apply and expand my skills to boost efficiency and performance in every project I undertake.
